

Example case history and feedback: Partnerships with trust- Pod- *we do what we say we are going to do*

Pod first began partnering with Nottingham University Hospitals in 2011 when requested to design and deliver a range of programmes for staff at bands 2-5. Pod designed and is delivering focussed ILM development programmes that integrate with the NUH values and the NUH staff development progression route.

From 2013 Pod became the chosen partner for Nottingham University Hospitals' ILM provision after winning the open tender for a 5 year training partnership agreement and preferred supplier status.

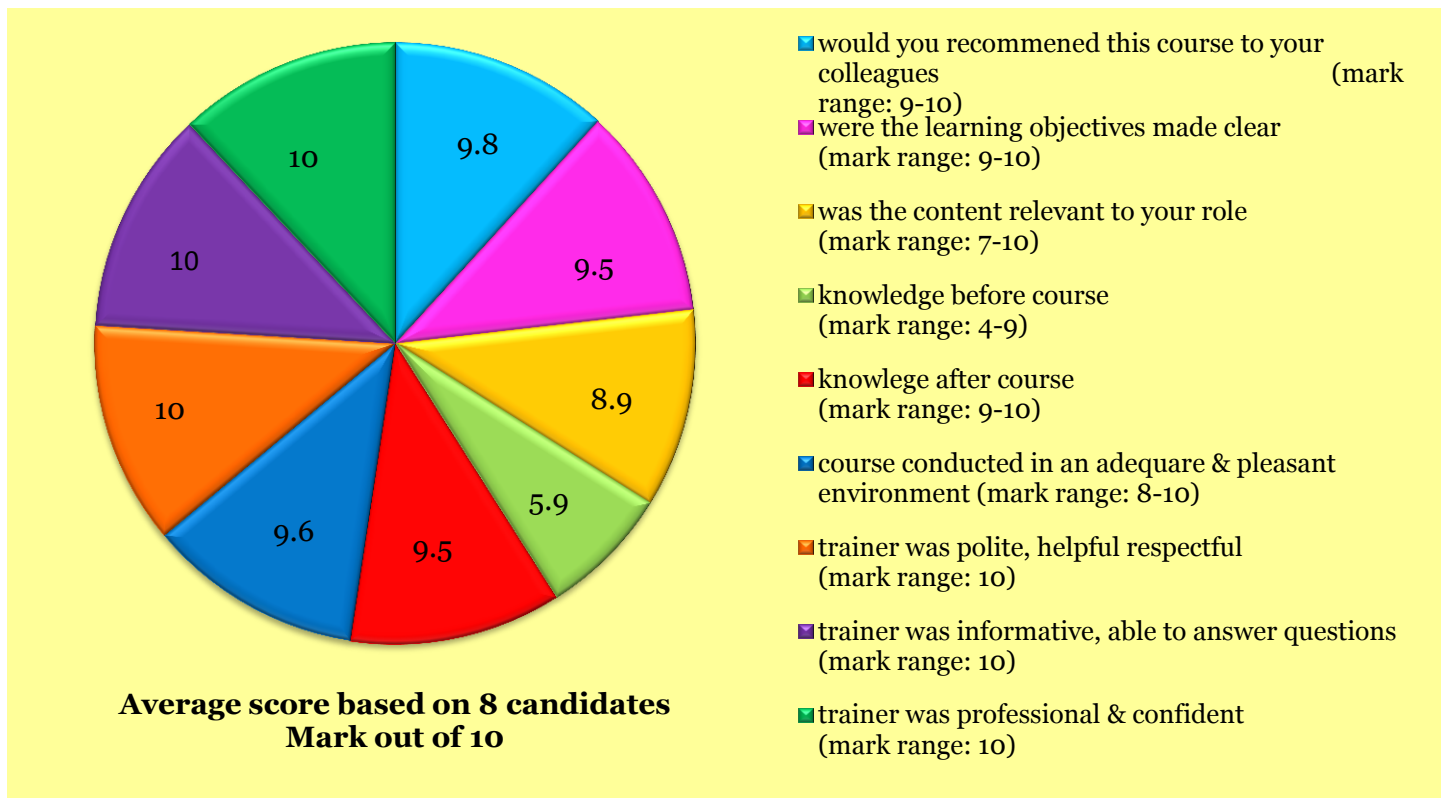

Delivery partners for

- ILM level 2 Award
- ILM level 3 Award

Pod currently delivers multiple programmes at each level each year with excellent feedback – the programmes currently have waiting lists.

Thank you for another really good evaluation and delivery of what was clearly a much appreciated course. I was able to use the level 2 feedback for our Health Education East Midlands Quality Management visit a couple of weeks ago – it was not only very positive but also eye catching and looked good on the display stand - Frances Newsham Professional Development Lead NUH

Customer feedback: Delegates included band 2-3 admin/logistics/facilities/MLSO grades: ILM level 2 course. NUH own feedback version/used with permission

Customer reference if required

We are happy for you to talk to our customers to hear what they have to say about pod.
